

changed lives

Prior to the arrival of an AIA STINTER in 2004 there had been a minimal Christian influence with the Prague Lions, but God had begun a work in the heart of Honza before that. As the AIA STINTER befriended him through football it appeared that this might be one of the first guys AIA could disciple, within the American Football world of the Czech.

[honza]

However, it didn't happen as we had hoped, but after a fruitful friendship this AIA STINTER went back to the States without seeing the decision that was prayed for. But God continued working and 6 months later an email was received, from Honza, that said he had given his life to Christ and had begun a relationship with HIM. It was followed by very encouraging words, including this:

"If God will be in hearts of all people, that will be fine, but I am not sure, if it is possible. Czech people's thinking is very complicated. It was influenced by the history. It goes deep to the 16th and 17th century. Maybe deeper! I think, that this is long-distance run. But we can to try to be at the beginning of it all like **pilgrims!**"

the next step...

So is the Ultimate Coach calling your number? You have seen the playbook, you have seen how you could fit into the plays that are being called. What's stopping you from making the eternal play? If you feel like He's calling your number please get in touch with us! We would love to talk with you more about the opportunities that STINT in the Czech Republic presents for you.

what's missing?

YOU!

the czech republic

czech republic

The Czech Republic, a country of nearly 11 million people, is located in central Europe. The capital city, Prague, has a population of 1.2 million people and is considered one of the most beautiful cities in all of Europe.

Czech has a rich religious history, but according to the last census, almost 90% of Czechs identify themselves as atheists. This atheism in Czech isn't an intellectual atheism formed by many years of study. Instead, most Czechs have never thought about God and do not know anyone who would identify themselves as a follower of Jesus.

For most Czechs, faith is for the weak, the elderly, and the poor. Churches are the cathedrals that litter the landscape, sit empty most of the year, and are visited only by their grandparents or tourists.

Would you like to be a part of transforming sport, specifically football, for the glory of God and for the good of the Czech people?

what's it look like?

The STINT experience varies from individual to individual, usually lasting around 9-12 months with a possibility of another year. We have relationships within the Czech football world and our desire would be to place you on a team in the capital city of Prague. We have placed a previous STINTER on a team in Prague (the Lions) and he had a tremendous impact spiritually as well as on the field.

Your goal would be to be a teammate who continually talks to people about Jesus. You would practice, play, possibly coach a junior team and travel with your team looking for opportunities to share the life changing message of Jesus with those you encounter.

You would also work with other short-term and long-term staff to reach students who study at the Sport University in Prague. At this University, we do outreach activities and teach conversational English classes to engage students in thinking about spiritual things.

Our goal is that you would grow spiritually as well as you share the message of Jesus with people in Czech Republic.

But how are they to call on him in whom they have not believed? And how are they to believe in him of whom they have never heard? And how are they to hear without someone preaching?

Romans 10:14
